

The 2nd Feminist Republik Festival - 2022

Urgent Action Fund - Africa hosted the 2nd Feminist Republik Festival from 28-30 November 2022 in Naivasha, Kenya. The Festival was a unique, creative space and an opportunity dedicated to fellow womn human rights activists, partner organisations, Womn's Funds, and funders to get an immerse experience and understand the healing justice framework and collective care practices. It was a moment of exploring if a healing justice framework on the African continent could be used to help activists begin their healing journey and thrive.
